

AFTERSCHOOL ART PROGRAM

in art fundamentals and comics

We at Art School of SF Bay, offer after school art programs in **art fundamentals** and **manga/comics**, and main art programs based on art history. Our professional art teachers have experience working with a wide variety of age groups and know how to keep students engaged while enjoying new art making fundamentals.

We help kids understand the process of creation. Students learn to take their work from sketch to the final product through a sequence of creative choices.

Well-known in the Bay Area, **Art School of SF Bay**, hosts art camps and in-studio classes. We also teach custom art programs for local schools.

We currently offer after-school classes for Stratford, Khan Lab Schools, and others. Below are examples of the programs we will be offering in the fall of 2023.

If you are interested in enriching your students' art experience, please respond to our email at artforschools@artschoolsfbay.com and we can schedule a zoom call at your convenience.

Sincerely,

Maria and Svetlana
